## 6801041 Avao BOD Croll Fast

### DESCRIPTION

- Integrated CROLL ventral rope clamp for ascending ropes
- Built for comfort:
  - X-shaped dorsal construction wraps to reduce pressure points during prolonged suspension
  - semi-rigid, wide waistbelt and leg loops for excellent support; sculpted and lined with breathable perforated foam for comfort during suspension
  - foam shoulder straps are widely spaced to reduce neck chafing; when the waistbelt is loaded, they help distribute this load over the shoulders
  - hooking points for installing a PODIUM seat for use in prolonged suspension
- Practical adjustment:
  - waistbelt and shoulder straps equipped with self-locking DoubleBack buckles for quick and easy adjustment
  - leg loops equipped with FAST buckles for quick and easy opening and fastening without the need to readjust them, even while wearing gloves
  - fold-away side attachment points prevent accidental snagging
- Facilitates carrying and organization of tools:
  - six pre-shaped equipment loops with protective sheath
  - four CARITool tool holder retainers
  - two slots for TOOLBAG tool pouch
- Less traumatizing post-fall position:
  - in case of a fall on the dorsal attachment point, the load is distributed over the leg loops, allowing the user to remain suspended longer while awaiting rescue
- The international version has a fall indicator: a red strap appears on the dorsal attachment point after a fall to indicate that the harness should be retired.
